

(for Supervisor)

Student name:	Nguyen Van Quang
Thesis title:	Online Capacity Estimation of Lithium-ion using Data-driven Methods
Program:	Information and Communication Technologies, collaboration between the University of Science, John von Neumann Institute - VNU-HCM and Télécom ParisTech.
Program code:	60.48.01
Supervisor 1:	Assoc. Prof. Quan Thanh Tho
Institution 1:	Ho Chi Minh City University of Technology

COMMENTS

1. Student's study and research attitude:

.....

.....

.....

.....

2. Scientific research capability:

.....

.....

.....

.....

3. Summary of thesis's results:

.....

.....

.....

.....

4. Practical applications of the results (if applicable):

.....

.....

.....

.....

5. Conclusion:

1. Does the work meet the requirements of a master thesis?
2. Should the student be permitted to defend the thesis?

.....

.....

.....

6. Other comments (if applicable):

.....

.....

.....

.....
